DETAILED ACTION

Allowable Subject Matter

1. Claims 1-9 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance: the prior art of record neither teach nor show a plurality of second engagement hooks protruded from the lamp main body; and configured to respectively elastically engage with a plurality of second engaged sections in a roof panel of the vehicle, to fix the lamp main body fixed to the roof trim to the roof panel, wherein each of the second engagement hooks comprises an inclined engagement surface which is elastically engaged with the second engaged section in a state of being inclined with respect to the mounting roof panel.
3. The Examiner is convinced that the prior art of record fail to show or teach the plurality of second engagement hooks comprises an inclined engagement surface which is elastically engaged with the second engaged section in a state of being inclined with respect to the mounting roof panel on one hand, and on the other hand reference "Ngata U.S.6543918 B1" can not be used to set a double patenting rejection, because "Ngata U.S.6543918 B1"'s claims fail to read over the claims of the instant application (#10091587).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
